

History of Australia: The Earth Abideth for Ever, 1851-1888

The late Manning Clark aims to bring to attention the foibles and strengths in every person, traits forced to the fore in the hardship and trauma that occurred during the establishment and development of white settlement in Australia. Clark sets out to use the tragedies and successes of national heroes such as explorers and generals, and those of the average person such as soldiers at Gallipoli and farmers wives, to create a memorable tableau.
