

The Exception (Version One Book 1)

When Luke and nine of his fellow shape shifters traveled to Forest High it seemed like any other assignment that was until three years eclipsed without a single problem surfacing that would signify that the prophecy had been fulfilled. The team led by Luke, which the prophecies proclaimed to be The One to stop The Others, a fraternity who despised all human beings, begins to question the real reason they were sent there. Had the prophecy been wrong? He had wondered like the rest of them. That was until the day she heard them. Julia Welsh was a girl with no exceptional abilities except for the fact that she was born deaf but somehow could still hear their kind. Although it seemed highly unlikely that Luke and his team were sent there because of her, Luke knew that he needed to protect Julia and her secret because if The Others were to discover the truth, she'd be killed. Though none of them could have predicted how vital Julia was to their mission and how she was truly the exception. The Exception is an unedited story written six years ago by Leah Spiegel and Megan Summers. Although they know there are many editorial errors, they still wanted to share these characters with their fans!
