

Invisible Sun (Black Hole Sun)

Mars roars Durango has lost his crew and his father, but he still has his second-in-command, Vienne, for now, anyway. And they have a mission: discover everything absolutely everything about the secret government project his father was desperate to cover up. Not to mention that Durango determined to prove himself to Vienne even if he dies trying. As he races through flood and fire and across a violent and terrifying planet, there's a 97% chance he's going to die trying. The chase is on.
