

The Night Is Found (The Magdeburg Trilogy Book 3)

A superb series from start to finish that, like the best musical mashups, takes something old (werewolf mythology) and makes something completely fresh out of its source material. Charles de Lint, award-winning author of *The Newford Series* Kruger provides her readers with a fast-paced, action-filled urban fantasy. Young adult readers who enjoy the genre will find much to enjoy about all books of the trilogy and will feel that this final volume brings the entire story to a satisfying conclusion. *CM Magazine* When they tried to kill a prince, they made a king In the aftermath of his pack leaders assassination Connor Lewis is ready to take control. Rodolfus de Aquilas plan before he died was to unite the European werewolf packs against their common enemies: the Hounds of God who make the laws and enforce them ruthlessly with questionable motives, and the Luparii, an intergovernmental group of werewolf hunters now bent on the extermination of his kind. The uneasy alliance between these two factions has fallen apart, and now a battle wages leaving the pack werewolves scrambling to escape bio-chemical warfare on one side, and total domination on the other. After hearing rumors of a union between the American packs Connor returns with Amara to his home city of New York to learn how to bring the Old World packs together. Werewolf society in the New World has taken a very different course from that of Europe, but when Connor meets the American leaders he begins to question if their methods are, in fact, the way forward. A world away from Madison, Arden, and all those he is trying to protect, Connor must discover the secret to uniting and leading the packs under one final charge, or else risk extinction for their entire species in the epic conclusion to *The Magdeburg Trilogy*.
