

Omens: The Cainsville Series

Following the epic conclusion of her internationally bestselling *Women of the Otherworld* series, Kelley Armstrong launches a brand-new series set in Cainsville, a small town as spookily fascinating as Stephen Kings Castle Rock or Dean Koontzs Moonlight Bay. Olivia Taylor Jones, 24, seems to have the perfect life. The only daughter of a wealthy Chicago family, she has an Ivy League education, pursues volunteerism and philanthropy, and is engaged to a handsome young tech-firm CEO with political ambitions. But Olivias world is shattered when she finds out that shes adopted. Her real parents? Todd and Pamela Larsen, notorious serial killers, each still serving a life sentence. The news brings a maelstrom of unwanted publicity to her adopted family and fiance, and Olivia thinks the best thing she can do for herself and for them is run away from it all. She ends up in the small town of Cainsville, Illinois, an old and cloistered community that takes a particular interest in both Olivia and her decision to uncover the truth about her birth parents. Olivia decides to focus on the Larsens last crime, the one Pamela Larsen swears will prove their innocence. But as she and Gabriel Walsh, Pamelas former lawyer, start investigating, Olivia finds herself drawing on abilities that have remained hidden since her childhood, gifts that make her both a valuable addition to Cainsville and deeply vulnerable to unknown enemies. There are dark secrets behind her new home, and powers lurking in the shadows that have their own plans for her.
