

Camping and Woodcraft: Volume 2

Heralded as the bible of outdoorsmen by hunters, campers, fishers, and craftsmen of all walks, Horace Kepharts perennially sought-after guidebook Woodcraft, stands as an astounding testament to the vast depth and precision of the authors practical knowledge and profound love of life in the outdoors. The second half of Kepharts enormous two-volume collection, Camping and Woodcraft, this more portable book contains a wealth of information on living off the land. Topics covered include: Pathfinding Axemanship Cabin construction Knot-tying Marksmanship Hide tanning Cave exploration Living off the country The first volume, Camping, covers skills like outfitting, campfires, cookery, tenting, and much more! Camping as a single volume as well as the combined Camping and Woodcraft are newly available from Churchill & Dunn! A beacon of self-reliance with the intellectual appetite of the worlds most accomplished scholars, Kephart spent his early years in voracious pursuit of knowledge as a precocious student, bibliophile, and librarian at such prestigious institutions as Yale University and the Saint Louis Mercantile, working as a freelance writer all the while. As he fell in love with the outdoors and the skills required to navigate them, Kephart grew proportionally dissatisfied with the daily monotony of life in academia, taking to the woods for days on end with increasing frequency before finally making the Great Smoky Mountains his permanent home. Back in print for a new generation of self-reliant, wilderness-loving campers and sportsmen, this high quality edition is a tremendous resource for anyone who loves the outdoors.
