A unique translation of Case Law into a kindle format for family law judgments involving a separated parent with majority care seeking to relocate with the children. Intended for McKenzie Friends (lay advisers) and litigants-in-person (parents without legal representation) seeking to prevent the relocation on child welfare grounds. This kindle case law compendium provides a fast and simple way to access the leading judgments in this area of family law. Kindle has the further benefit for the lay adviser of allowing notes to be made against points of law, and for the lay adviser to select those relevant to the legal arguments their client wishes to present in court. In April 2013, legal aid is to be removed from the majority of family law cases in England and Wales. The Government's own impact assessment is that some 50,000 cases will be affected. The Custody Minefield is a leading provider of family law information to parents, grandparents and charities. Our pages are currently viewed some 40,000 times a month. This Case Law Compendium includes leading judgments in internal relocation cases, where relocation will be within the jurisdiction of England and Wales.
