

African Boy: A Gay Sex Odyssey

Self-confessed gay sex addict Kevin Armstrong takes us on another of his gay sex odysseys. Our roving raconteur had always been cynical regarding that old myth about African boys you know the one. Cliches again. However Kev has to think twice when he meets Sheku, a boy from the Congo. Although Kevin is a Sagittarian and therefore a cock-eyed optimist, he wonders if he will be able to rise to the challenge when Sheku reveals all. Excerpt: I first met Sheku in a gay bar only two weeks or so after the departure of my ex, King Tokles. Id called in to the Court Hotel, the citys main gay venue and host to some really spectacular drag shows. I noticed this tall black boy sitting by himself at the bar. And when I say black he was coal black. His hair was closely cropped and his spectacular smile seemed to illuminate the dark corner of the bar. His luxuriously long legs swept upwards to a trim torso and even in those dim conditions I could see the outline of a truly grand package. He was being totally ignored by the chattering twinks and queens who were clustered around him. It was as if he wasnt there, sitting in their midst. At once my heart went out to him, the boy looked so desperately lonely. Or was that a kind of pseudo-emotion manufactured by the awakening lust that was tweaking my dick? What was wrong with those wretched queens? Then it struck me; to them the ebony boy was so exotic, so beautiful, so beyond their usual experience that they didnt know how to react. Or was it simply that they feared rejection if the black boy refused their advances? What the hell? I thought. Even if Im rejected Ill live to see another day. As Kevin is learning to cope with the exotic Congolese boy and his massive member he journeys mentally back in time to the seventeenth century. Hes working on a television series about the good ship Batavia which was wrecked off the coast of the Great South Land. As

the story goes a mad charismatic serial killer, Jeronimus Cornelius, appoints himself leader of the survivors and starts a campaign of mayhem, torture and murder. Wouter and Henrik, two cabin boys, are in love with each other but find that they face a horrendous dilemma: will they have to bare their asses to the pirates in order to survive? Excerpt: My interest in the story had been sparked by my discovery that two of the cabin boys on the vessel were lovers. Theyd grown up together in a small village just outside Amsterdam. Gay sex was not only against the law at that time in Holland, it was a hanging offence. I imagined that the two boys, Henrik and Wouter, apart from wanting to see the mysterious Far East, signed on so that they could be together without risking the hangmans rope. The more I explored the story of the Batavia and its two cabin boys the more I began to understand my Congolese boy.
