

Finding the Evidence, 2nd Edition

There is an unprecedented demand for scientific evidence in child and adolescent mental health. Finding the Evidence is a unique resource that provides busy clinicians with rapid access to the best available secondary research evidence. This second edition is an essential tool for clinicians and includes: A simple guide to searching for research evidence. A list of the best research evidence on a wide range of subjects including systematic reviews, meta-analyses, guidelines and practice parameters identified not only by searching bibliographic database but by an expert selection of key and cutting edge publications. Search strategies to allow clinicians to identify randomised controlled trials and systematic reviews. A range of critical appraisal tools. New to the second edition are: A synopsis for all topic areas covering details of the aetiology, diagnosis and prevalence of conditions. Expert commentary on the current research base and the gap between research and practice. A significantly expanded and updated range of research. Key developments in the management of individual conditions. Important messages for the development of services. Also Available Fishs Clinical Psychopathology, 3rd Edition - ISBN 1904671322 Jobs Illness: Loss, Grief and Integration - A Psychological Interpretation - ISBN 0902241176 RCPsych Publications is the publishing arm of the Royal College of Psychiatrists (based in London, United Kingdom), which has been promoting excellence in mental health care since 1841. Produced by the same editorial team who publish The British Journal of Psychiatry, they sell books for both psychiatrists and other mental health professionals; and also many written for the general public. Their popular series include the College Seminars Series, the NICE mental health guidelines and the Books Beyond Words series for people with intellectual disabilities. RCPsych
