

## A Flower in the Desert (The Joshua Croft Mysteries)

A film star begs Croft to find his missing wife and daughter. Hollywood icon Roy Alonzo has just learned that in Los Angeles there is no such thing as a simple divorce. After years of bitterness and jealousy, his wife Melissa leaves him, taking most of his money, property, and five days a week with their only child. When Roy begins dating again, Melissa accuses him of sexually abusing their daughter, and disappears with her. Alonzo asks Santa Fe detective Joshua Croft to find them and prove his innocence, but there's a problem: Croft thinks Alonzo is lying. Croft refuses to help the star -- but a surprise visitor changes his mind. Norman Montoya, underworld kingpin of Santa Fe, is Alonzo's uncle, and he convinces Croft that the fugitives are in jeopardy. The women have been swallowed by an international conspiracy, and it will take brute force -- not star power -- to bring them back.
