

Microsoft Excel 2013 Bible

Whether you are a novice looking for help on one of the most dreaded topics in microsoft office or you are looking for a resource that will help hone your skills in excel, microsoft excel 2013 bible is suitable for you. Its versatility lies in the fact that it is easily appropriate for all kinds of excel users: whether power, intermediate, would-be power users, or even readers who have absolutely no idea about how to begin working with the software. The content in the book is segregated into seven parts and will teach the students all the techniques as well as the tips and tricks of microsoft excel, that is spread across 900 pages.its table of contents include getting started with excel, that will teach readers about the fundamental concepts, followed by the various functions and the formulae, the correct process of creating graphics and charts, using and applying the advanced features of excel, and analysing data with excel. The last chapters are focused on teaching the readers about programming excel with the aid of vba or visual basic and finally, the appendices.microsoft excel 2013 bible was published by wiley india pvt. Ltd. In 2013 and is available in paperback. Key features: this is a book from none other than the universally acknowledged authority on all things spreadsheet, and is hence called mr. Spreadsheet.the previous book on the same topic was the excel 2010 bible. However, this version includes all the updated and novel features in excel 2013.
