

What Maisie Knew and Daisy Miller

Two classic works by Henry James. *What Maisie Knew* is a novel by Henry James, first published as a serial in the *Chap-Book* and (revised and abridged) in the *New Review* in 1897 and then as a book later that year. The story of the sensitive daughter of divorced, irresponsible parents, *What Maisie Knew* has great contemporary relevance as an unflinching account of a wildly dysfunctional family. The book is also a masterly technical achievement by James, as it follows the title character from earliest childhood to precocious maturity. *Daisy Miller* is a novella by Henry James that first appeared in *Cornhill Magazine* in June/July 1878, and in book form the following year. It portrays the courtship of the beautiful American girl Daisy Miller by Winterbourne, a sophisticated compatriot of hers. His pursuit of her is hampered by her own flirtatiousness, which is frowned upon by the other expatriates when they meet in Switzerland and Italy.
