

Democracy in America (Volume 1)

Democracy in America. De la democratie en Amerique; published in two volumes, the first in 1835 and the second in 1840, is a classic French text by Alexis de Tocqueville. Its title translates as Of Democracy in America, but English translations are usually entitled simply Democracy in America. In the book, Tocqueville examines the democratic revolution that he believed had been occurring over the past seven hundred years. In 1831, Alexis de Tocqueville and Gustave de Beaumont were sent by the French government to study the American prison system. In his later letters Tocqueville indicates that he and Beaumont used their official business as a pretext to study American society instead. They arrived in New York City in May of that year and spent nine months traveling the United States, studying the prisons, and collecting information on American society, including its religious, political, and economic character. The two also briefly visited Canada, spending a few days in the summer of 1831 in what was then Lower Canada (modern-day Quebec) and Upper Canada (modern-day Ontario). After they returned to France in February 1832, Tocqueville and Beaumont submitted their report, *Du systeme penitentiaire aux Etats-Unis et de son application en France*, in 1833. When the first edition was published, Beaumont, sympathetic to social justice, was working on another book, *Marie, ou, Lesclavage aux Etats-Unis* (two volumes, 1835), a social critique and novel describing the separation of races in a moral society and the conditions of slaves in the United States. Before finishing *Democracy in America*, Tocqueville believed that Beaumonts study of the United States would prove more comprehensive and penetrating.
