

Dracula (Spanish Edition)

Este ebook presenta Dracula (texto completo, con índice activo), con un sumario dinámico y detallado. Dracula es una novela publicada en 1897 por Bram Stoker, que ha convertido a su protagonista en el vampiro más famoso. Dracula, parte de la existencia de Vlad Tepes, es un personaje histórico situado en la Rumania del siglo XV, y conocido por su heroicidad contra la invasión otomana, pero también por su crueldad. A partir de esta historia y de no pocas leyendas acerca de él, Bram Stoker escribe esta novela en forma de diarios y cartas que los personajes principales van intercambiándose. Una obra trascendental de la literatura gótica que abrió un nuevo camino en la novela de terror y que instauró la figura del aristócrata transilvano como arquetipo del mal y modelo de seducción perversa. Bram Stoker (1847 - 1912) fue un novelista y escritor irlandés. En su momento fue conocido como el asistente personal del actor Henry Irving y como el gerente del Teatro Lyceum de Londres (del que Irving era dueño), pero hoy en día se le recuerda por la creación de una de las historias de terror más influyentes de todos los tiempos, su novela Dracula, basada en la figura legendaria de Vlad Tepes.
