

A Brief Biography of Nathaniel Hawthorne (Annotated)

Originally published in 1897 in A Library of the Worlds Best Literature, Ancient and Modern, Volume 18 this Kindle edition, equivalent in length to a physical book of approximately 20 pages, describes the life and work of American novelist and short story writer Nathaniel Hawthorne. Includes supplemental material: A Brief Summary of the Life of Nathaniel Hawthorne Brief Plot Summaries of The Scarlet Letter and The House of the Seven Gables Sample passage: The Scarlet Letter, in 1850, brought him immediate distinction, and has probably kept its place not only as the most original of his novels, but as the most distinguished piece of prose fiction that was to spring from American soil. He had received in 1839 an appointment to a small place in the Boston customhouse, where his labors were sordid and sterile, and he had given it up in permissible weariness. He had spent in 1841 near Roxbury, Massachusetts, a few months in the co-operative community of Brook Farm, a short-lived socialistic experiment. He had married in the following year and gone to live at the old Manse at Concord, where he remained till 1846, when, with a fresh fiscal engagement, he returned to his native town. It was in the intervals of his occupation at the Salem customhouse that The Scarlet Letter was written. The book has achieved the fortune of the small supreme group of novels: it has hung an ineffaceable image in the portrait gallery, the reserved inner cabinet, of literature. Hester Prynne is not one of those characters of fiction whom we use as a term of comparison for a character of fact: she is almost more than that she decorates the museum in a way that seems to forbid us such a freedom. Hawthorne availed himself, for her history, of the most striking anecdote the early Puritan chronicle could give him give him in the manner set forth by the long, lazy Prologue or Introduction, an exquisite

commemoration of the happy dullness of his term of service at the customhouse, where it is his fancy to pretend to have discovered in a box of old papers the faded relic and the musty documents which suggested to him his title and his theme. About the author: Henry James (1843-1916) was an American novelist and critic who resided in England from 1896. Notable works are *The Turn of the Screw*, *The Portrait of a Lady*, and *Daisy Miller*.
