

# Every Child, Every Day: A Digital Conversion Model for Student Achievement (New 2013 Ed Leadership Titles)

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. This is the story of how 2013 Superintendent of the Year, Mark Edwards, led the Mooresville, N.C. Graded School District in its goal of creating a vibrant new learning environment for teachers and students and achieving outstanding academic results through an innovative digital conversion initiative that provided every student and teacher with a laptop, despite a very modest resource base. Every Child, Every Day gives readers a look at the visionary success factors that worked together to produce positive results: a culture of caring, digital resources, a relentless focus on data, leadership at all levels, and student-centered learning and shows how their interplay drove, and can drive, academic improvement in virtually any school district. New funding strategies that address the budget issue combine with step-by-step replication tips to provide valuable inspiration and guidelines to help every school succeed on the digital conversion path to student achievement.
