

# Dermatology in General Medicine: Update 1

This text-reference for dermatology - is now even better! The fourth edition uses color illustrations throughout and incorporates the most recent clinical and scientific findings to present the practitioner with the most complete reference on the diagnosis and treatment of skin disease and the dermatologic manifestation of systemic disease. New topics include: the skin manifestations of HIV and AIDS, genetics in relation to skin, neurobiology of the skin. Merkel cell carcinoma, skin problems in amputees, sports dermatology, skin signs of drug abuse, geriatric dermatology and more.
