

## GAY MOMENTS: My Gay Roomie: A Gay First Time Romance

Young Scott is rather apprehensive as he prepares to attend university and take up residence in Macquarie Residential College. He wonders what it will be like having a roomie. As an only child Scott has been used to having a room of his own. Of course hes read a lot of gay stories on the net. He realizes that erotic tales about gay roomies are particularly popular but how realistic are they? It doesnt seem to matter if one of the boys is straight and the other gay, both gay or indeed both straight jocks, you can invariably count on them fucking each other by the end of the story. When the rugged roomie finally arrives, Scott has just finished having sex in the room with a cute boy from down the hall. The roomie doesnt take this kindly and Scott wonders if hell be sharing with a homophobe.

Excerpt: Of course Id read a lot of erotic stories on the net about college boys sharing rooms. You know the kind of thing

GAY Room Mates (First Time Gay Romance, Straight to Gay Blah Blah Blah). After vampires I guess it must be one of the most popular sub-genres on the internet. Most of these stories are set in American colleges. Sometimes you can download them for free or maybe buy them for less than the cost of a cup of coffee. They are usually so cliched. It doesnt matter at the beginning of the story if both boys are sexy twinks, or if one is a straight jock and his roomie is a raving queen, or indeed both guys are straight you just know that by the end of the story theyll be fucking the crap out of each other. Well at least I could take comfort from the fact that I wouldnt be living in a cliched situation. However if Cody and I were to go on not really communicating then life could become uncomfortable I considered and even interfere with my studies. My Gay Roomie contains descriptions of gay initiations, anal sex and mutual masturbation. It is not for the faint-hearted. All characters involved in sexual

relationships are above the age of 18.
