

## Reflections on the Revolution in France With an Introd: By George Sampson (Classic Reprint)

Burke with in the limits of a short article is foredoomed to failure. His career shows a double phase, each remarkable. In the political history of England he holds a prominent place through participation in many a great struggle; in the history of English letters he is renowned as the greatest of those who have used our tongue in prose to ends of power and passion. This introduction will contain no consideration whatever of Burke the politician; and of Burke the writer, it will present the merest outline of a sketch. I f, by giving a short account of his principal works, and a taste of their quality in the shape of a small quotation, it will persuade any one either to read as a whole the magnificent and momentous fruits of an intellect truly great, or even to make the attempt, it will have accomplished all it aims to do. He was born in Dublin, probably in the January of 1729 (N.S.), and came to London to study for the legal profession in 1750. His literary life began in 1756 with the pamphlet entitled AV indication of Natural Society, etc., written in imitation of the style of Bolingbroke, and in ridicule of that noble writers facile philosophy.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings.
