

Guinness Book of British Hit Singles

Now in its 9th edition, this established pop-music reference book contains information on every hit single in Britain since the charts began in 1952, including title, artist, label, catalogue number, number of weeks in the charts, and highest position. All entries are listed under both artist names and song titles. The facts and feats section has been expanded to highlight facts such as the most frequently-used Christian names in hit songs, the most popular football-team songs, chart geography, and one-hit wonders.
