

Hunter Brown and the Consuming Fire (Codebearers #2)

After returning from his first trip to Solandria, Hunter Brown finds himself alone with memories of his adventures and many unanswered questions. He returns to school with the sneaking suspicion he is being watched, but his tendency to think he is being trailed by the Shadow lands him in a heap of trouble. Soon, Hunter takes a wild ride to Solandria with two new friends, Trista and Rob, and a furry creature, Boojum. The land has greatly changed. The Codebearers have been scattered and the Resistance is weak. With more questions than answers, Hunter, Trista and Rob begin their quest, led by a mysterious flame. Their goal is to find the Seven mentioned in the Authors Writ and to save Hope. But they face a brutal adversary, Xaul, who threatens to steal the flame and destroy all that remains of the Resistance. Has Aviad abandoned them all to the Shadow? Will Hunter and his friends find the courage to complete their quest or will they be too late?
