

Illustrations of Political Economy, Vol. 4 (Classic Reprint)

Kent has long suffered peculiarly from the poverty of its labouring population. To the traveller who merely passes through it, it looks like a fruitful garden, capable of affording support to as many inhabitants as can gather round its neat towns, or settle on the borders of its orchards, hop-grounds, and corn-fields ;yet it is certain that nowhere, not in the alleys of Manchester or the cellars of London, is more abject, hopeless poverty to be found than in some of the country parishes of Kent. One class murmurs about tithes, and rages about poor-rates, while another sets law at defiance, and fills the country with news of murderous poaching expeditions, and of midnight fires; guilty adventures, of which the first brings in only a precarious and dearly bought advantage, and the other is the most effectual method that could be devised for increasing the very evils under which the people are groaning.(Typographical errors above are due to OCR software and dont occur in the book.)About the Publisher Forgotten Books is a publisher of historical writings, such as: Philosophy, Classics, Science, Religion, History, Folklore and Mythology.Forgotten Books Classic Reprint Series utilizes the latest technology to regenerate facsimiles of historically important writings.
