

Les Fleurs du Mal: A new bilingual edition of Baudelaire's masterpiece of 19th century French poetry. (French Edition)

Considered by some critics as the definitive translation to date of Baudelaire's seminal work of world poetry, this dual language book, published in 2015, contains facing page translations of the complete text of the 1857 edition, with the thirty-five poems which augmented the 1861 edition also included after the main text. The translations preserve both the original versification and the intrinsic sense of each individual poem.
