

Lost Dogs and Lonely Hearts

ROMANTIC NOVEL OF THE YEAR 2010. When the abandoned strays from a local dogs home are matched with brand new owners, it turns out it might not just be the dogs who need rescuing. Rachel's aunt has left her a house, a Border Collie and, despite knowing nothing about dogs, a crowded kennels. But since her life has collapsed she's not sure she can deal with any more lost souls. Zoe's ex-husband has given their children a puppy. The kids are in love, but she's the one stuck training Toffee the impossible Labrador. She's nearly at the end of her tether - until Toffee leads her to a handsome doctor... Meanwhile Natalie and Johnny's marriage hasn't been easy since they started trying for a baby. But is a fridge-raiding, sofa-stealing Basset hound like Bertie really the child substitute they're looking for? As the new owners' paths cross on the town's dog-walking circuits, their lives become interwoven. And they - and their dogs - learn some important lessons about loyalty, companionship and unconditional love . . .
