

Beethoven

Richard Wagner (1813-1883) belongs to the most important composers at all. Because of his musical understanding and interpretations he is counted as a re-newer of composing music in Europe. He felt a very close relationship with Ludwig van Beethoven, as his work was the reason why he became a musician and composer. This book is a homage to the German composer and had its premier at the hundredth birthday of Beethoven in 1870. This book is the English translation of the German language original.
