

LaunchPad for Moores Statistics In Practice (Twelve Month Access)

Our new course space, LaunchPad, combines an interactive e-book with high-quality multimedia content and ready-made assessment options, including LearningCurve adaptive quizzing. Curated pre-built units are easy to assign or adapt with your own material, such as video, animations, simulations, readings, quizzes, discussion groups and more. LaunchPad also provides access to a gradebook that provide a clear window on performance for your whole class, for individual students, and for individual assignments. While a streamlined interface helps students focus on what's due next, social commenting tools let them engage, make connections, and learn from each other. Use LaunchPad on its own or integrate it with your schools learning management system so your class is always on the same page. Contact your Rep to make sure you have access. What's in the LaunchPad
