

## Million Dollar Year

Million Dollar Year is the story of the final year in the life of Peter Caswell, a fictional character in an all-too-real situation. He has just received the news that his days are numbered. Of course for each of us, our days are numbered - but we don't know the number. Peter does. His number is 365, give or take a few. And he's decided to make the most of them for the future security of his family. This is how he finds himself on a cruise ship with some of the most successful multilevel marketers in the world. While Peter Caswell and his situation are fictional, the MLM Cruise is not. It is a real event, open to all who wish to build relationships and share success secrets with each other. The decision to write the book was to share the experience with those who have never gone and for whatever reason may never go. It's the cruise in audiobook format, as best as we could capture it. The lessons contained within this book can change your outlook, your business, and your life.
