

Little Puppy (Mummy and Baby)

2 books in 1 perfect for sharing! This adorable board book has a baby book nestled inside the mommy book, attached together by a ribbon, and held in place by a maternal paw! With bright, appealing artwork and a gentle reassuring story about Baby Puppy joining in with his mother's daily activities before being tucked gently into bed. This series is ideal for parents to share with their child as the little book mirrors the actions in the main book so the child can follow along and find the right actions to match each spread.
