

Oceans of Red: Demon Revolution

By 2015 the streets of Los Angeles have transformed from a thriving metropolis into a hostile world ravaged by demons bent on assimilating the human race. Standing between this total apocalypse of humanity and their chance for survival is the last of the United States military. Hidden within a top secret bunker, and lead by Admiral Gary Martin and his three children, this remnant wages war against the demonic regime. When the Admiral disappears, his daughter Remy chooses to take the lead and continue the battle to regain their world. Trained to think on her feet and kill if the situation requires, she is aided by her older brother and younger sister. But when an experiment goes terribly wrong, they discover that to save the human race, they may have to end it. Is there a line between black and white when you live in an Ocean of Red?
