

The Lost Isles (Book 1) - YA Paranormal Adventure

Chelsea, the daughter of a famous archaeologist and a Harvard professor, has spent years trying to find her father, after he went missing in a privately funded expedition in the Indian Ocean. With the use of his diary and the childhood stories he had told her when she was little, she finally found what she was looking for: The Lost Isles. But upon arrival to the uncharted place, she finds something entirely different. Something, that has the power to destroy all mankind.
