

The King in Yellow (Illustrated) With Accompanying Facts, 10 Illustrations and Free Audio Link

Strange is the night where black stars rise, And strange moons circle through skies but stranger still is Lost Carcosa... The King in Yellow is a collection of Art Nouveau short stories, which includes several famous weird short stories, all of which are connected by the theme of a fictitious drama involving a mysterious book called The King In Yellow. It is said to have the ability to morally corrupt or spiritually destroy those who read it. The second premise of the book is that The King in Yellow actually exists somewhere beyond the stars and an imperial dynasty has established itself on our planet; originating from the alien city Carcosa, found amongst the stars in the Taurus constellation; the original domain of The King in Yellow, whose unseen terrible influence on Human life is more pervasive than anyone can imagine. Genre: Supernatural, Short story, Horror, Speculative fiction The King in Yellow was described as one of the most important works of American supernatural fiction by editor and bibliographer, E. F. Bleiler. It was also strongly admired by H.P. Lovecraft and his circle. Highlights of this edition are: 10 illustrations. A free web link to an audio file to listen to the whole book.
