

The Obama Prophecies--The Future of U.S. Politics 2015-2016

The dome of the U.S. Capitol building is engaged, or so it seems. The scaffolding set up for major renovations of the grand cupola could stand as an architectural metaphor for the state of the U.S. Republic and its Congress. Centuries of wear and tear have revealed dangerous, systemic cracks needing a concerted effort to repair before it all collapses. The question put forth in this little book by one of America's most accurate political forecasters is whether the scaffolding stands as either an omen promising future restoration of a polarized and nearly broken political system; or, it is a sign that the Republic will fall behind the prison bars of a corporate coup d'état. What role does President Obama play in that future? John Hogue warned in early 2007, nearly a year before the primary elections of 2008, that only one candidate had the slightest chance of defeating Senator Hillary Clinton for the Democratic Party's nomination for president Barack Obama. Hogue explained correctly how he would achieve it, but then handed down a caveat: If Obama became president in 2008, he would arrive at his destiny too soon and not ready for prime time History. It is better to be too early than too late; however, with less than two years left in his presidency, success is not assured. In this fiery and captivating book, Hogue will forecast whether President Obama will, or will not, enjoy a late-blooming greatness. It also anticipates the next steps in a corporate takeover of the U.S. Republic. These include a pair of presidential candidates picked by an emerging plutocracy in a rigged 2016 Presidential Election. Who will be the next president? The choice may be theirs. With forecasts spanning the next two years of American politics, this book will present in great detail an alternative future the American voter can access. Real flesh and red-blooded American citizens of all political persuasions can come together and

take back their country from corporations masquerading as people. I have known John Hogue for fifteen years, during which time he has appeared on my radio program many, many times. Every year, he predicts on the program in the first quarter and we hold his feet to the fire during the summer. And every year, he proves to be fireproof. Hes accurate. Uncannily accurate. Whitley Strieber, author of Communion and The Coming Global Superstorm with Art Bell John Hogue is author of 600 articles and 29 published books (1,160,000 copies sold) spanning 20 languages. He has predicted the winner of every US Presidential Election since 1968, giving him a remarkable 12 and 0 batting average. Hogue is a world-renowned expert on the prophecies of Nostradamus and other prophetic traditions. He claims to focus on interpreting the worlds ancient-to-modern prophets and prophecies with fresh eyes, seeking to connect readers with the shared and collective visions of terror, wonder and revelation about the future in a conversational narrative style. Hogue says the future is a temporal echo of actions initiated today. He strives to take readers back to the present empowering them to create a better destiny through accessing the untapped potentials of free will and meditation.
