

## A Matching Theorem for Locally Stationary Random Processes (Classic Reprint)

Excerpt from A Matching Theorem for Locally Stationary Random Processes Lemma 3 gives the harmonic analysis of the covariances and In the Appendix we discuss the harmonic analysis of the process  $x(t)$  and of the locally stationary process  $X$ (We are now in a position to solve the matching problem proposed above: Matching theorem. Let  $\gamma$  and  $\|l$ : be two inte ble non l l i. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
