

Sampaguita

The last 15 pages of Leo Orii's first novel, *Sampaguita*, will have you dying to read the second segment. In true 1940s cliffhanger fashion, Orii leaves the reader waiting with bated breath for more. In the first of a two-part series, Orii takes you on a tour of the World War II-era Philippines, through the streets of Manila and into the homes of the locals. We accompany Yuji on the journey toward his first love and the strains that it places on his traditional Japanese family back home. All while the winds of war blow not so subtly in the background. As *Sampaguita* opens, Yuji, a simple sailor on a freighter that docks on Cebu Island in the Philippines, disembarks and meets the woman who wins his heart, while navigating criminals in the local factories. Trading in his paintbrush for a pen, acclaimed artist Leo Orii has taken his first turn at a novel *Sampaguita*, a World War II period piece about Yuji Izaki, a young Japanese man discovering himself as a merchant sailor during a prolonged stop in the Philippines. Orii's love and knowledge of the Philippines stems from the 20-some years he spent there in the 1970s through the 1990s, when he owned a furniture and carpet factory. Originally from Japan, Orii first moved to the U.S. in 1962, but still regularly spends time in his native country and the Philippines. Orii's wide range of artwork, including paintings and tapestries, has been commissioned by a multitude of household names like Imelda Marcos, Richard Nixon, Carol Burnett, the Imperial Palace Hotel in Tokyo and the Las Vegas Hilton to name but a few. Wait for the second part of *Sampaguita*, coming soon. -- Bill Byron First Place Associated Press Award Winning reporter and editor, *The Desert Sun*, *The Daily Gazette*
