

Beatles 1967-70

There was rich praise for the original edition of The Beatles Stories Behind The Songs Book, including Steve Matteo in The Music Paper describing it as One of the most readable and illuminating books ever written about The Beatles and in his autobiography, Many Years From Now, even Paul McCartney acknowledged Steve Turners work. Where is Penny Lane? What was the inspiration for Lucy In The Sky With Diamonds? Steve Turner shatters many well-worn myths and adds a new dimension to the Fab Fours rich legacy by investigating the events immortalised in The Beatles music and now occupying a special niche in popular cultures collective imagination.
