

The Young Afrikan Warriors Guide to Defeating Bullies and Trolls

Bullying is a widespread problem that affects thousands of teens of Afrikan descent throughout the Diaspora. Victims of bullying battle depression, anxiety, insecurity, and fear. Sadly, some victims internalize their frustration by harming themselves or become bullies as well. But if adults and our youth agree that bullying is so devastating, why does it continue? Most importantly, how can it be stopped? THE YOUNG AFRIKAN WARRIORS GUIDE TO DEFEATING BULLIES AND TROLLS addresses these and many other questions about a major issue for children, young adults and their families. This one-of-a-kind book uncovers the social pressures and individual choices that lead to violence and provides techniques, tips and tactics for youth, parents and teachers to employ that can pave the way for social action and even save lives. The knowledge, experiences and methods found within The Young Afrikan Warriors Guide to Defeating Bullies and Trolls will not only teach children and young adults to protect themselves and to think critically about bullying but will also empower them to change both themselves and the circumstances that foster abuse in their schools and their communities.
