

## Machlis The Enjoyment Of Music (Workbook)

This brand new Workbook is designed to complement both versions of The Enjoyment Of Music, Fourth Edition. The eighty projects provide the student with assignments of widely differing types, some to be completed in class, some in the listening laboratory, and some at home. The exercises follow the organization of the book, focusing on the major points made in each section. Included are review projects cast in a wide variety of testing modes; exercises in directed listening; groups of highly provocative questions designed to bring the students personal experience to bear on their understanding of music; and, finally, summaries for reference and reinforcement.
