

A Jerusalem Story

This is a short story about a love affair between a young Israeli man and a Palestinian girl. Based loosely on Shakespeares timeless Romeo and Juliet tragedy, the two young people are caught up in the war between their two peoples. They try desperately to conduct their relationship in private, but the forces around them seem to be just too powerful to overcome. So, as much as both of them have deep seated connections to the land, they decide the only way for them to survive is to leave and go to the United States. The Israelis and Palestinians are perfect 21st century equivalents to the 17th century fictitious Capulets and Montagues. The Middle East conflict used as the backdrop for this tale has many relevant historical meanings to the reader, political, social, military, etc.
