

Nation

On the day the world ends Mau is on his way home from the Boys Island. Soon he will be a man. And then the wave comes - a huge wave, dragging black night behind it and bringing a schooner which sails over and through the island rainforest. The village has gone. The Nation as it was has gone. Now theres just Mau, who wears barely anything, a trouserman girl who wears far too much, and an awful lot of big misunderstandings . . . Wise, witty and filled with Terry Pratchetts inimitable comic satire, this is a terrific adventure that - quite literally - turns the world upside down.
