

The Pornographer

One of the preeminent writers of our time, John McGahern has captivated readers with such poignant and heart-wrenching novels as *Amongst Women* and *The Dark*. In *The Pornographer*, Michael creates an ideal world of sex as a writer of pornographic fiction, while he bungles every phase of his entanglement with an older woman who has the misfortune to fall in love with him. But his insensitivity to this love is in direct contrast to the tenderness with which he attempts to make his aunts slow death in a hospital tolerable. Everywhere in this rich novel is the drama of opposites, but above all, sex and death are never far from each other.
