

The Guardian, a Sword, & Stiletto (The Enlighten Series) (Volume 1)

Zoe Jabril could be just another 17-year-old girl attending parties with her friends and checking out cute guys except her best friend is a Guardian Angel, and the boy she crushes on is a Nephilim, half-angel, both sent to Earth to protect her. A high school classmate happens to be a trendsetting shopaholic fairy. And now there's a new werewolf in town. Zoe has to deal with her feelings toward Shay, who spreads a strange electrical current through her body every time he touches her. Now Zoe is under constant attack from demons, trying to kill and stop her from fulfilling the Prophecy: a girl will be born who will unite the Enlightens to battle evil. Then on top of that, between boring homework and drama with girls at school, she has to control new found talents if she's to prevent the devil from escaping Hell. In order to do so, Zoe must devise a kick-ass plan ASAP or watch everyone die, because she's running out of time. She turns eighteen in two months the date Armageddon kicks off.
