

The Tempest Audiobook (Graphic Shakespeare)

This series features classic Shakespeare retold with graphic color illustrations. Educators using the Dale-Chall vocabulary system adapted each title. Research shows that the more students read, the better their vocabulary, their ability to read, and their knowledge of the world. Word-for-word audiobook features professional actors and sound effects, not just monotonous monologue. Books are sold separately. Prospero, the rightful Duke of Milan, and his daughter, Miranda, were put out to sea in nothing more than a raft but were miraculously spared, arriving safely on an enchanted island. Using the island's magic, which the sorcerer Prospero has learned to control over many years, he conjures up a storm that envelopes a nearby ship containing his enemies. Each separate group of survivors is manipulated by Prospero. Will his marooned rivals apologize for their mistakes?
