

## Thug Me Like That

Having escaped the grimy reality of her past, 22 year old Skylar definitely doesn't look like what she's been through. After her world is turned upside down within the blink of an eye, there's only one person left in her corner- her deceased brother's best friend, Jayceon. With unknown dangers looming over them, Jayceon vows to protect Skylar at all costs; even if that means uprooting and leaving everything they know behind. Now, in a new city with new friends, Skylar is ready to leave her past behind her and start fresh, but that proves to be extremely difficult when new secrets began to surface. What do you do when almost everything you've known to be true turns out to all be a lie? Sky is forced to answer that very question, but thanks to her newfound friend, Trish and her family, Sky doesn't have to pick up the pieces alone. Loyalty will be tested. Limits will be pushed. In the end, true colors are revealed and Sky is finally able to see the snakes that have been slithering right in her backyard.
