

## My Danish Harbor

Art and Homesteading in Scandinavia In this book the author shares her autobiographic story of how the family moved into the middle of nowhere: a lonesome harbor in southern Denmark. Lots of photographs and poems illustrate daily life to such a degree that it almost feels as if the reader is part of it. A very beautiful and romantic book which also offers insight in the rough parts of an alternative lifestyle. Its a breathtakingly beautiful journey through Scandinavia and into the self which shows what an artists life doing homeschooling and homesteading is like in reality.
