

Slide Rule (Vintage International)

Nevil Shute was a pioneer in the world of flying long before he began to write the stories that made him a bestselling novelist. This autobiography charts Shutes path from childhood to his career as a gifted aeronautical engineer working at the forefront of the technological experimentation of the 1920s and 30s. The inspiration for many of the themes and concerns of Shutes novels can be found in this enjoyable and enlightening memoir.
