

Perception (The Perception Trilogy)

A Library Journal SelectionETERNAL LIFE IS TO DIE FOR.Seventeen year old Zoe Vanderveen is a GAP--a genetically altered person. She lives in the security of a walled city on prime water-front property along side other equally beautiful people with extended life spans.Her brother Liam is missing.Noah Brody is a natural who lives on the outside. He leads protests against the GAPs and detests the widening chasm theyve created between those who have and those who dont. He doesnt like girls like Zoe and he has good reason not to like her specifically.Zoes carefree life takes a traumatic turn. Shes in trouble and it turns out that Noah, the last guy on earth she should trust, is the only one who can help her.PERCEPTION is a (SF/mystery/romance) Young Adult novel that takes place in the not too distant future in a world changed by climate extremes, natural disasters and impending wars, and where scientific breakthroughs cause class divisions--both financially and philosophically. It explores the clash between faith and science and how differences can separate us as enemies or ally us together.And in some cases, even in the midst of betrayal and personal crisis, theres room to fall in love.This is the first book in a trilogy.
