The work is epic in scale and is regarded as one of the most important works of world literature.It is considered Tolstoys finest literary achievement, War and Peace tells the story of five aristocratic families—the Bezukhovs, the Bolkonskys, the Rostovs, the Kuragins and the Drubetskoys—and the entanglements of their personal lives with the then contemporary history of 1805 to 1813, principally Napoleons invasion of Russia in 1812. The Bezukhovs, while very rich, are a fragmented family as the old Count, Kirill Vladimirovich, has fathered dozens of illegitimate sons. The Bolkonskys are an old established and wealthy family based at Bald Hills. Old Prince Bolkonsky, Nikolai Andreevich, served as a general under Catherine the Great, in earlier wars.
