

## Wart, Son of Toad

Its not Steves fault that his dad is the most hated teacher at school, nicknamed the Toad. What the kids at school dont know is that Steves dad is even harder on Steve than he is on his students. And that his dad has been miserable ever since Steves mom and sister died in a car crash three years ago. Most of the kids dont even know Steves real name they just call him Wart, Son of Toad. Steves failing most of his classes, and the auto mechanics program he wants to get into is looking like an impossible dream. Not that it matters, anyway: the Toad would never sign off on his son fixing cars. Steve and his dad may live in the same house, but they exist on completely different planets. And then theres Trish, the one person who actually understands Steve but shes in love with someone else. First published in 1985, Alden R. Carters *Wart, Son of Toad* is a powerful, acclaimed story about love, loss, and taking control of your own destiny.
