

World War II (Major U.S. Historical Wars)

No other conflict in history matches the sheer magnitude of World War II. Aggressive dictators employed their military forces throughout the globe, forcing peaceful nations to fight back with troops and tanks. Deadly submarines scoured the world's oceans for enemy ships. In the sky, bombers and fighter planes tangled for supremacy. Meanwhile, scientists raced to develop new weapons and technology. The conflict raged for six years, affecting nearly every country on the planet. When the guns finally fell silent, at least 55 million people were dead. More than half were unarmed men, women, and children. This book in the MAJOR U.S. HISTORICAL WARS series examines the events that led up to World War II. It discusses the political and military strategies that the Allies and the Axis Powers employed, and provides information about key people, battles, and events. The largest and most devastating conflict in history, World War II changed the course of human history, and thundering echoes of its most desperate battles remain with us today. Each title in this series contains color photos, maps, chronology and back matter including: an index, further reading lists for books and internet resources, and a series glossary. Mason Crest's editorial team has placed Key Icons to Look for throughout the books in this series in an effort to encourage library readers to build knowledge, gain awareness, explore possibilities and expand their viewpoints through our content-rich non-fiction books. Key Icons are as follows: Words to Understand are shown at the front of each chapter with definitions. These words are then used in the prose throughout that chapter, and are emboldened, so that the reader is able to reference back to the definitions- building their vocabulary and enhancing their reading comprehension.
