

Yeast: a Problem

As this my story will probably run counter to more than one fashion of the day, literary and other, it is prudent to bow to those fashions wherever I honestly can; and therefore to begin with a scrap of description. The edge of a great fox-cover; a flat wilderness of low leafless oaks fortified by a long, dreary, thorn capped clay ditch, with sour red water oozing out at every yard; a broken gate leading into a straight wood ride, ragged with dead grasses and black with fallen leaves, the centre mashed into a quagmire by innumerable horsehoofs; some forty red coats and some four black; a sprinkling of young-farmers, resplendent in gold buttons and green; a pair of sleek drab stable-keepers, showing off horses for sale; the surgeon of the union, in Mackintosh and antigropelos; two holiday schoolboys with trousers strapped down to bursting point, like a penny steamers safety-valve; a midshipman, the only merry one in the field, bumping about on a fretting, sweating hack, with its nose a foot above its ears; and Lancelot Smith, who then kept two good horses, and rode forward as a fine young fellow of three-and-twenty who can afford it, and has nothing else to do, has a very good right to ride.
